## BUILDERS HARDWARE STORES, LTD.

CARBON, ALBERTA

## BUDGET OF NEWS FROM HESKETH

The break in the weather has delayed operations on the land, but now the snow is gone and everyone is hard at it once more.

Don't forget the W.I. dance to be held on April 19th. The Big Six orchestra will be at their best as usual. Everybody come and you will be assured of a real good time.

Mr. Harold Bingham has just arrived from his home in the States. He is working for his brother, Mr. Roy Bingham.

Mr. Dan Code of Carbon passed through on Wednesday, stopping only for a minute.

Mr. John Kappes anticipates the erection of an addition to his house and will commence building as soon as he finishes seeding.

Now that Wong Kai is about to go we are beginning to feel the loss of a laundry in town.

Mr. and Mrs. Clark made a flying trip to Munson. They reported the roads bad, but were fortunate in getting there and back without getting stuck.

Mr. Jake Zeigler made a trip to Hanna the first of the week. He states that the roads were practically impassable, thus taking him three days to make the trip.

Mr. R. Matchett is commencing to build culverts for division 6. He has been delayed, having some concrete to finish on East View School.

The tennis dance held last Friday was a real success. The Big Six were there at their best and all had a real good time. Several were from Carbon among whom was Mr. W. Braisher. Drumheller was also represented. The balloons were making sufficient noise to let all know that there was either too much air in some or that they had a puncture. Mr. A. Hunter was requested several times to bring over his repair kits, as a vulcanizer would have made good repairing balloons which had seen their better day. Mr. W. E. Walker handled the floor efficiently and all went home feeling tired, but well satisfied with a good night's fun.

Watch this part of the paper. There will be things of interest to you.

## SUNDAY SCHOOL CONTEST

The contest in the Sunday School is to be between the Reds and Blues. Sides were chosen on Sunday and the side which has the largest attendance till the end of June must be entertained in some way by the losers. Any person bringing a new member may have such on that side.

The sides have been chosen as follows.

**REDS**—Claribelle Ramsay, captain, Annie MacDonald, Jas. Taylor, Grace English, Geraldine McGregor, Jimmie Fairbairn, Sam Poxon, Zona Fairbairn, Frances MacDonald, Gwen Jealous, Marion Torrance, Norman Ramsay, Harry Poxon, Jack Code, K. Ramsay, Mr. L. B. Hart, Alice Kaiser, Sammy Malton, Pauline Schoeppe, Robert Ramsay, Betty Code, Stella Dodyk, Gordon Ramsay, Bennie Zeigler, Sidney Bramley, Bill Graham, Kenneth Leitch, Jean Heath.

**BLUES**—Mabel Ramsay, Captain, Eileen English, Ruth Ramsay, Jack James, Winnie Poxon, Myrtle Livingstone, David Kaiser, George Jealous, Marjorie Leitch, Betty Willson, Chas. Code, Leslie Bramley, Stanley Ramsay, Bill Code, Johnson Hart, Dorothy Mortimer, Mrs. Poxon, Elaine Torrance, Florence Code, Betty McQuade, Gordon McGregor, Molly Milton, Jack Heath, Billy Heath, Roy James, Elsie Bramley, Phyllis Heath, Evelyn Cox.

## PUBLIC NOTICE

I, the undersigned, have no connection with the garage as advertised, Olive Brothers, Carbon. Any advertising done by the Olive Garage, Carbon, is done by W. H. T. Olive.

(Signed) T. R. OLIVE

## FIRE DESTROYS CARBON BAKERY AND RESTAURANT

A serious fire occurred in Carbon about 2.30 a.m. on Saturday morning, when the Carbon Bakery and the cafe next to it were practically destroyed by fire. The fire was first noticed by people returning from the play at Acme and an alarm was immediately turned in and it was not long before a crowd had gathered. But the fire gained considerable headway before the water could be turned on and the Carbon Bakery was a mass of flames and fire had crossed to the cafe next to it. The volunteer fire men did good work with the hose here and although the fire was burning fiercely and the whole of the second story of the cafe was a mass of flames, the water kept the fire down and it was soon under control, although both of the buildings were practically a complete loss.

The building that housed the Bake Shop was owned by R. McKinnon and we understand that no insurance was carried. R. C. Barr the owner of the Bakery did have some insurance on the equipment, but we understand that he contemplates opening up in a short time again.

We understand that the cafe building was in the hands of the Credit Men and some insurance was carried on the building.

## ENTHUSIASM NEEDED IN FIELD CROPS COMPETITION

Some time ago it was decided to hold a field crops competition in the Carbon district this year, but as yet there has been very little enthusiasm shown in this important matter. We understand that there are about five entries in the hands of Mr. F. Barker, but there are also a number of farmers that wish to enter, but have not done so. If you want to get into this competition get in touch with Mr. Barker immediately and he will give you any information you desire. Every farmer should endeavor to enter and he will surely profit by the experience of others who enter along with him.

## GOOD CROWD ATTEND PLAY "CIVIL SERVICE" AT ACME

A record crowd filled the Acme Hardware Hall last Friday night when the Carbon Thespians took the play "Civil Service" to that town. The play was sponsored by the Acme Elks on a 50-50 basis and with the dance and play the gate receipts were close to \$300 and after all expenses were paid over \$200 was cleared.

## BETTER SEED CAMPAIGN SUCCESSFUL

General satisfaction is expressed throughout the province with the results of the campaign to promote the use of better seed grain recently carried on under the direction of the Department of Agriculture. A marked improvement of the quality of seed used last year was noted as the result of a similar campaign and it is hoped that a corresponding improvement will be apparent in the 1929 crop.

## REPATRIATED CANADIANS FOR THE PEACE RIVER DISTRICT

Making the beginning of a considerable movement if people of French Canadian origin who are returning to Canada from the New England states, a party consisting of 187 new settlers passed through Edmonton this week on their way to a number of districts in the Peace River Country. Settlement will be principally in the Kathleen vicinity, southeast of McLennan, where a new parish is being established. Included in the party were a number of young married men well equipped with capital, who will return for their wives and families after homes have been prepared on the farms selected in Northern Alberta.

## LITTLE ITEMS OF LOCAL INTEREST

Mr. and Mrs. McNaughton, Mrs. T. Ramsay, Marvyn and Ruth, went to Calgary on Tuesday.

J. W. Baird came out from Calgary on Monday and is spending a couple of days here.

Mr. and Mrs. R. C. Barr motored to Calgary on Monday.

Mr. and Mrs. L. Poxon, Miss Dorothy Annear and Cyril Poxon motored to Edmonton on Sunday. Miss Annear will remain at her home in Edmonton.

J. J. Greenan was a Calgary visitor last Friday.

—See Mrs. C. Knisely for your spring sewing. 2tc

Chas. Nash and Vin Castiglione motored to Calgary on Monday.

A little rain has been prevalent in the Carbon district this week.

There will be a Whist Drive in aid of the Carbon School Fair on Friday, April 19th, in Mr. Connolly's room of the Carbon School. The admission charge will be 50c and the ladies are asked to please bring refreshments. Suitable prizes are being offered and everyone is cordially invited to attend.

## RED DEER BOY WINS ORATORY CHAMPIONSHIP

To Walter B. MacDonald, age 18, a student of Red Deer High School goes the honor of representing Alberta in the Dominion finals of the Canadian and International Oratory Contest. Walter, after winning in the Southern Alberta division, was given the judges' decision by a narrow margin over Gwendolyn Gant of Grande Prairie, the Northern Alberta semi-finalist, in the final contest at Edmonton, Friday night. As the result of his victory, in addition to winning a handsome cash prize, he will be given a trip as the guest of the Calgary Herald and the Edmonton Journal, to Toronto, where he will compete with representatives of the other provinces for the Dominion championship.

## SOLDIER SETTLER'S FARMS ARE BEING REVALUED

Good progress is being made in the revaluation of farms occupied by soldier settlers according to announcements made by officials of the Dominion Land Settlement Branch. A good start was made with this work last fall and inspectors of the Settlement Branch will continue their duties along this line in many districts in the province as soon as road conditions permit.

## ARBOR DAY MONDAY, MAY 6th.

Monday, May 6th, has been named as Arbor Day by decision of the Provincial Government. On this day special attention will be paid through out the province to the planting of trees and flowers and the beautification of homes and grounds.

## INTEREST SHOWN IN ALBERTA SALT DEPOSITS

Sir Thomas Tait, president of the Canadian Salt Co., Windsor, Ontario, will shortly pay a visit of inspection to the salt deposits in northern Alberta according to information received by Hon. V. W. Smith, Minister of Railways and Telephones. In his position as head of the largest company of its kind in the Dominion, Sir Thomas is reported to be interested in the possible developments in this important and promising Alberta industry.

# BEAUTIFY CANADA

Clean Up, Paint Up, Keep It Up --- Increases the Value of Your Property

## THE DRIVE TO FINISH OLD MAN DIRT IS ON

Greatest Effort in History of Canadian Cleanliness  
Includes Hundreds of Communities

The greatest effort in the history of Canadian cleanliness is on! Cleanliness has a history. Its influence can be traced down the ages. Those races that were Clean were the races that were Masters.

The Athenians, with their baths and beautiful homes conquered the Persians, with their unkempt beards and dirty skins. The Romans, with their aqueducts, their barbers, their gardens beat back the barbarians with their goat skins and greasy fingers.

Louis the Fourteenth was the daintiest monarch France ever had and one of her mightiest. Fifth kept the Panama Canal from being built years before it finally was. Bolshevism flourished when the dirty and the ignorant gained control in Russia—anarchy breeds in filth and squalor.

Cleanliness has always been po-

tent. Modern sanitation saved millions of lives in the great war.

Real people, the wise, the leaders in progress, always have fought for cleanliness. At times it has been a sporadic fight, a skirmish. A clean man was handicapped by a neighbor who let his premises run wild. But co-operation has been brought to play at last.

This year, in Canada alone, hundreds of villages, towns and cities are campaigning for cleanliness, health, and beauty. They are not doing so for a day or a week but in a continuous campaign. There is a steady pressure.

Tin cans, flies, refuse, dirt, waste paper, unsightly buildings, unpainted surfaces are taboo. The drive is on. I won't be stopped.

Join the forward movement. Clean Up, Paint Up, and Keep It Up. Make the old enemies, Dirt and Disease and Unsightliness abdicate forever.

## The Use of Paint

Lessens Farmer's Cost Of Doing Business

The farmer, like the manufacturer, must employ the most efficient and economical methods of doing business if he is to prosper. When he keeps track of costs he finds that by building of better material, buying better implements, and then taking care of them, he increases his power of production and lessens the drain on his income.

Next to the purchase of good materials, the use of good paint is the farmer's best insurance; it protects his property and equipment against the rapid deterioration caused by wear and weather. The protection and appearance of barns, fences, windmills, wagons, tanks, etc., are just as important as the careful upkeep of factory tools and machinery, and depreciation here should be figured as carefully by the farmer as by the manufacturer.

A few cents invested in paint and a little work each season will soon show in the lengthened life of your equipment to say nothing of the satisfaction you will take in its improved appearance. Here is a list of paints that it will pay you to keep on hand:

Two-quart can of buggy paint in red and black, for painting up wagons and buggies.

A small can of aluminum paint, for interior iron work, such as stalls, stanchions, etc.

A small can of implement or spar varnish.

A half-gallon can of metal protective paint, for metal buildings. A good graphite paint is best for this purpose. Paint over regularly all such exposed metal parts as hoops, turnbuckles, outside hinges, door-hangers, iron hitching posts, etc.

A gallon can of barn color or house color for general repair work.

It is well also to periodically treat the inside of staved silos with the special compounds prepared for that purpose.

The life of fence posts can be prolonged three times if the lower part is treated with the compound used on silo staves. This can be most easily done by taking a full barrel of the preservative, putting half in another empty barrel, taking the heads out of both barrels, and letting the fence posts stand in them over night. This treatment will make the poorest wood last longer than the best chestnut.

It has been proved that the painting of good galvanized wire fence doubles its life. In putting up a new woven wire fence the painting can be done very easily by making a

shallow trough that will take in the roll of wire fencing. Turning the roll around in the trough and pouring the paint over it at the same time will thoroughly cover every part. A good metal paint is best for this purpose.

A paint which makes concrete sufficiently non-absorptive to shed an ordinary rain greatly enhances the value of concrete buildings for cow stables, granaries, dairies, etc. The absorption of water through the walls has been the principal objection to such buildings in the past. Concrete paints come both in natural cement color and in several pleasing shades.

It is never advisable to try to paint an old shingle roof unless it has been previously painted, because the water gets under the shingles causing them to rot and curl up. It is always well, however, in putting on a new shingle roof to dip the bundles into a properly prepared shingle stain; this is especially true now-a-days as the quality of shingles is much poorer than formerly.

It is good policy not only to prevent deterioration with paint but also to forestall paint troubles. The commonest of all paint troubles is peeling, the chief cause of which is moisture, and moisture in turn is due to:

1. Dampness In the Wood. This means not only wood which is damp to sight and touch, but wood improperly seasoned, recently exposed to rain or fog or dew.

The pores in kiln-dried lumber are open and will soak up moisture; for this reason allow a new building to stand a month or two unpainted.

In short, if there is moisture in wood, heat will drive it either out or in. If heat on the inside of the house drives it outward the paint will peel.

2. Dampness Back Of the Wood. This is commonly due to green plaster. Too often in a hurry to complete a house the painters are put to work on the outside while the plasterers are finishing the inside. To complete the rush, about the time the paint is dry the furnace is started to dry the plaster. The moisture must find an outlet and is driven out through the exterior woodwork, carrying the coat of paint with it.

3. Ochre Priming Coats. Common ochre is the cheapest pigment, and when one remembers that the priming coat is the foundation on which the finishing coat depends, he does not have to be a paint manufacturer or dealer to appreciate how absurd is the statement so often made "Anything is good enough to prime with." Cheap ochre is nothing but clay stained, which makes a slippery, brittle paint.

4. Old Paint Loosely Attached To the Wood and Not Thoroughly Cleaned Away: If old paint is not firmly attached to the wood the con-

traction in the drying of the new paint will peel it off. Repaint before the old paint begins to let go. It's poor economy to delay repainting.

In case the under coat is brittle, scrape, sand-paper, and wire-brush all loose particles before repainting. If too far gone remove with a painter's torch. Always remember three thin coats of paint are better than two thick ones. The thick coats may save a few dollars in the beginning but may cost more than double in the end.

5. Fat Resinous Wood Not Properly Seasoned Or Prepared For Painting. This is a recent trouble due to the scarcity of well-dried lumber. The chief trouble is with yellow pine, which is full of turpentine and rosin. It is the rosin that causes the trouble. It mixes with the paint and makes it brittle. The knots are the worst spots and should be coated with shellac before painting. Turpentine dissolves rosin. This fact suggests much turpentine and little oil in the priming coat, and perhaps more turpentine than usual in the second coat, but, when every care is taken, paint will sometimes peel on yellow pine, where it is no fault of the painter or the paint. Liberal use of turpentine and vigorous use of the brush to work the paint into the wood are necessary to success on yellow pine.

6. Boiled Oil. Never use boiled oil in the priming coat; even when it is genuine boiled linseed oil; its preparation gives a glossy, varnish-like surface, and the priming coat should always be flat, or the succeeding coat will not adhere to it. Boiled oil should never be used for any coat in outside painting.

Paint may fail from causes other than those named because of application on dirty or greasy surfaces; because of leaky roofs; because of the use of adulterated linseed oil and poor dryers; because the coats are too thick, or because the under-coats are not dry—but the majority of cases are covered by the causes specifically named in this article.

## A Clean Town

Adds To the Value Of Your Estate and Promotes Good Health

Towns are measured by their general cleanliness and civic pride.

We need more trees and shrubbery around our homes, about the schools, in the parks, along water courses, and many other places.

Good health depends to a great extent upon the removal of rubbish and filth and the destruction of breeding places for disease-carrying insects.

It is the duty of every citizen to prevent deterioration. Paint is both a beautifier and a preventative of building decay.

Epidemics that come in the summer months have their origin in filth. We cannot hope to make our town a bigger town, unless we make it a cleaner town.

It is a well known fact that flies have been the means of transmission of disease, and this pest may be responsible for the transmission of infantile paralysis.

Filth, more than all other causes combined, produces disease, and it is up to every citizen to see that his immediate surroundings are sanitary.

Every citizen should make an effort to clean up his house and property so as to avoid fire risk, to abolish all places that might breed flies and mosquitoes to eliminate weeds and to help clean up vacant lots.

## Clean-Up and Paint-Up On the Farm

The man who owns a farm or lives on one should be just as much interested in Clean-Up and Paint-Up as the city householder. And the incentive to start such campaigns has been just as marked in the rural districts as in the more thickly populated ones.

Farmers everywhere are being urged to remove ramshackle buildings, repair and paint those that remain, trim hedges and trees, and clean and paint tools and machinery.

## These All Count

Here are some pointers for citizens who would regenerate their community with a real Clean Up and Paint Up campaign:

1. Take away all the ashes and trash from your back yard immediately. Send your rubbish to the dumping ground.

2. Suggest to several men with teams, that they drive through the alleys with a sign, "Clean-Up Wagon" on their wagons; also a bell calling attention. People are only too glad to pay such a man for hauling their trash away.

3. Burn all rubbish that will burn. Clean your vacant lots and alley ways.

4. Make your street and parking look as trim and well kept as possible.

5. Refrain from throwing old paper, banana and orange skins into the streets.

6. Plant some grass and flower seeds to make your home beautiful.

7. If your store front is dingy, paint it. Nothing will do more to improve the appearance of a town than the liberal use of paint.

8. If there are unnecessary, unsightly sheds in your back yards, tear them down. They detract from the beauty of your home and the town. Open spaces and fresh air are better.

9. If your walk is an eyesore to those travelling over it, repair it or build a new one.

10. Trim hedges and trees and spray trees.

11. Paint and whitewash barns, poultry houses, outbuildings, etc.

12. Paint tools and machinery.

The local "Clean Up and Paint Up" campaign offers the most direct and practical and permanent avenue through which women, organized or individual, can work for homes and home towns beautiful and sanitary.

## Keeps Floors Beautiful

Beautiful floors are largely a matter of prevention—the great secret is to put them in perfect condition—and then keep them that way. Doorways, passages and tracks become worn and unsightly first. You can keep these spots looking well by waxing them frequently. This requires but little time and effort if a good prepared wax and floor polishing brush are used.

## Rules For Fire Prevention

Do not permit rubbish, greasy rags, paper and useless waste to accumulate in or around buildings.

Do not allow matches kept in your homes, offices and stores in other than metal boxes. Use safety matches.

Do not allow children under ten years of age to use matches.

Do not use lamps and lamp burners that are not clean.

Do not tamper with or extend electric wire; employ an electrician.

Do not keep gasoline in other than air-tight cans painted red.

Do not fill tank of gasoline stove when lighted and fill by daylight only.

Do not permit a rubber tube connection to a gas stove.

Do not empty ashes in other than metal cans.

Ask Your Dealer for this Brand

When Buying Carpets, Rugs, Curtains Mattresses, Bedding and Furniture

The Quality and Values are Guaranteed by

GAULES LIMITED

Winnipeg Edmonton

Do not carelessly throw cigar and cigarette stubs where they could cause a fire.

Do not fail to warn your children of the dangerous bonfires.

Loss through preventable fires in the United States is \$250,000,000 which, however, is exceeded by the annual loss through the lack of painting—according to Prof. H. H. King, who has conducted paint tests for several years for the people of Kansas, at the Kansas Agricultural College.

Clean-Up and Paint-Up campaigns reduce fire losses and insurance rates; increases property values; remove unsafe buildings; swat the fly; make school and home gardens; make cleaner alleys and yards; educate children in fire prevention and clean-up measures; plant trees; collect and utilize waste; make more attractive and safer homes and places of business, and develops a community spirit that permanently insures a cleaner, safer, healthier and more beautiful town.

Toothbrushes and handkerchiefs have figured among the tokens of valor presented by Chinese generals to the troops under their command.

## DIAMOND "A" HOUSE PAINT

"MY FIRST CHOICE" because it's Absolutely Pure - Covers More - Looks Better and LASTS LONGER

CHURCH'S NOT A COLD WATER Alabastine

## Snicklefritz -----

James—What did you see in that girl's dress?

Lawrence—Not much. It's what I see out of it that gets me!

He: A penny for your thoughts.  
She: What do you think I am? A slot machine?

Passenger on Carbon route—Could you go faster than this? I'll be late home.

Conductor—I could go much faster, but I would be discharged for leaving my train.

Golf Pro: Now one important thing for me to tell you, sir, is always to keep your eye on the ball.

Suspicious novice: Oh, is that the sort of club I've joined?

Mrs. Blue—How do you control your husband while you are away?

Mrs. Black—I leave the baby with

him.

George—Do you believe in clubs for women?

Earl: Yes, if kindness fails.

#### Going the Pace

She: Where is your chivalry?

He: I turned it in for a Buick.

Surgeon—I feel duly bound to tell you that four out of five patients die under this operation. Now is there anything that you would like me to do for you before I begin?

Colored Gent—Yessuh, kindly hand me my hat.

A New York East Side boy was asked by his teacher what a "stoic" was.

"A stoic?—oh, dat's de bold what brings de kids!"

#### Money Well Employed

There are opportunities to put your surplus funds to profitable use without indulging in dangerous speculations.

An ad. in our Classified Want Columns will put you into communication with borrowers who have good security, and who are willing to pay good interest for accommodation.

With 99 arrivals scheduled at the Port of Montreal and Quebec during the 1929 season, the Canadian Pacific sets up a new record for one line sailing its ships via the St. Lawrence route. There will be 74 arrivals and departures at Montreal and 25 at Quebec, the season opening with the arrival on April 26th of the Montclare and the Duchess of York. The latter will be on her maiden voyage of the St. Lawrence. The first arrival at Quebec will be the Empress of Scotland, May 4th, after a winter of cruising in the Mediterranean.

One little pig went to market; and low and behold there were eight little pigs when the shipment arrived. It was a sow, and en route seven little pigs were born. Whether the shipper or the express company should pay the fares of the seven extra and unexpected pigs is a matter that has not been decided yet.

Thirty thousand tons of railway material—trucks and steel framing for box cars—will shortly leave Vancouver for the Orient, as equipment for the Trans-Siberian Railway. The order for this material was placed thirteen years ago, but delivery was halted with the outbreak of the Russian Revolution, and the equipment held in the Canadian Pacific Railway's yards at Coquitlam until conditions for delivery were more favorable.

Vancouver's growth since its incorporation in 1886 is revealed by the official estimate of the population of the new city by the assessment commission which places it at 228,193 for the city proper. A reliable but unofficial estimate of the population of Greater Vancouver is 235,000 exclusive of New Westminster. Greater Vancouver includes the City of North Vancouver, the District of North Vancouver and the municipalities of Burnaby and West Vancouver. Greater Vancouver and New Westminster jointly have a population of about 330,000, or about half the population of the entire province.

## Who Does Your Printing?

All business houses need more or less printed matter, all of which is within the possibilities of the local printer. Yet how prone many are to pass up the home printer and let the orders go to city offices which have no interest whatever in rural communities except to get printing orders and the cash to pay for them. Business men, remember that the home paper is constantly promoting the interests of the home community and you owe it to yourself and your local paper to back up these efforts by at least having your printed matter done locally.

WHEN IN NEED OF PRINTED MATTER CONSULT

# SPRING SHOWING

of the

## NEW CHEVROLET SIX

—a Six in the price range of the four!

WE cordially invite you to visit our special Spring display of the new Chevrolet Six.

Here, in a price class that has hitherto been occupied exclusively by four-cylinder automobiles, you will see displayed a line of beautiful models that bring you every advantage of six-cylinder performance in the price range of the four . . . six-cylinder smoothness, six-cylinder reserve power, six-cylinder speed and six-cylinder acceleration.

And this amazing six-cylinder performance is matched in impressiveness by the beautiful new Fisher bodies. Longer, lower and roomier . . . finished in striking new colors . . . and offering numerous outstanding comfort and convenience features—they introduce into the low-price field a new conception of luxury, comfort and style.

Come in any time the week of April 20th to 27th. We want you to see for yourself that no other car in the world can give you so much at prices within the reach of all.

You Are Cordially Invited to See Our Special Exhibit of the New Chevrolet Six

**GARRETT'S GARAGE, Carbon**

PRODUCT OF GENERAL MOTORS OF CANADA, LIMITED

## Over Two Hundred Trains Daily

The glass covered passenger train shed at Windsor Station, Montreal.

The largest in Canada and comparing very favorably with some of the largest in the United States, the Montreal Terminals of the Canadian Pacific Railway have 40 miles of double main track, six of single main track, 15 switching and delivery yards, over 300 private individual sidings and three interchange tracks with other railways, making a total of over 250 miles of track. An average of 125 passenger and 100 freight trains are handled daily, the number varying at different seasons. Nearly 8,000 freight and passenger cars are moved every day. 51 transfer and yard engines are in service 24 hours of the day and frequently additional locomotives are required. Between 3200 and 3500 men are employed constantly.

There are two large passenger yards, Glen Yard at Westmount, and Place Viger, of which the former is the larger and more important since it takes care of all incoming and outgoing trains to and from the Windsor street station. An average of 90 trains enter and leave the Windsor station and an average of 40 Place Viger Station daily which means that 65 outgoing trains at least, have to be switched daily, their cars made ready, inspected, watered, iced and cleaned in preparation for their journey.

Freight traffic is more difficult to handle than passenger. Of the 15 switching and delivery yards, Sortin, Outremont and Hochelaga are the largest. Incoming trains are taken in the receiving yard; outgoing in the classification yard and cars held for orders or repairs in the hold and repair yard.

An important feature of freight traffic is the prompt placing of all loaded cars onto the various private sidings, public team tracks and freight shed tracks throughout the city so that the various consignees can take delivery of their shipments as soon as possible after arrival in the receiving yards. Prompt placing of empty cars for loading is another important feature, as is also prompt movement of cars loaded in the city for shipment elsewhere. During the navigation season an average of 400 cars loaded with package freight for export is always waiting to be unloaded. Further, during the grain movement season, there is always an average of 1,000 cars of grain on hand.

Heavy traffic means constant attention to insure maximum of safety. The main line tracks are laid with 100-lb. rail and rock-ballasted. Nearly 200,000 new ties and 2,800 gross tons of rails were laid in the main line and yard tracks during 1927 without causing a minute's delay to traffic. There are four engine houses on the Terminals, each with stalls for from 24 to 36 engines and on the average 186 trains are dispatched every 24 hours for passenger and freight trains. There are on the terminals 226 buildings, 125 bridges and culverts and many hundreds of drains along the right-of-way.

Constant daily testing and blending of the world's choicest teas give Red Rose Tea its inimitable flavor and never-varying goodness. Every package guaranteed.

## Think Of the Future

A condition of prosperity prevails throughout Canada from coast to coast. It is not confined to any one section nor to any one industry or group of industries. There is, in fact, a generality to the existent favorable situation probably without a parallel in the past history of the Dominion. This is not to say that everybody or every industry is equally prosperous, or, indeed, that there are not those who do not enjoy prosperity. The contrary is true. But taking Canada as a whole, and in the major activities of its people, prosperity reigns today.

Such a condition is, of course, gratifying. Nobody would have it otherwise, and all desire that it shall be long continued. But there are dangers to be avoided in times of more or less universal prosperity which do not present themselves when times are hard and business depression rather than business activity is in evidence. It is an old and often proved statement that many people who can and have stood strong and true through the strain and stress of adversity, and won through to ultimate victory, have cracked and broken when favored with prosperity and success.

Canada is prosperous today, and it should take full advantage of its present favorable position. The people are optimistic and should continue so. They should continue to show vision, courage, and engage in constructive development. They would be unworthy of their heritage and the future possibilities of their Dominion if they acted otherwise. But they should nevertheless have a care in the enthusiasm of the glowing present not to forget the years to come.

Just as night follows day, winter follows summer, youth grows into old age, and death is the ultimate ending of birth, so is it inevitable that, in course of time, depression in business will follow buoyancy. A pendulum swings just as far one way as it does the other. It is a wise man and a wise community, therefore, which when times are good and development is the order of the day, takes thought of, and prepares for that future day when retrenchment may become a necessity.

If growth and expansion is artificially pushed too far; if an individual or a community becomes committed to large future obligations in order to further speed up present development, they may find themselves in great future difficulty.

All countries, all communities, most individuals, have passed through such bitter experiences. Western Canada has not been immune from them, and those who recall the "boom" days of the past know that the period of adjustment following the collapse of a "boom" was much longer than the "boom" itself, and that in the final analysis the losses far out-weighted the gains.

At the present time all our Western cities, towns, villages and rural municipalities are planning their programmes for 1929. Times are prosperous, the country is growing, and the almost universal demand is for increased expenditures to provide this and that. Today it is possible and comparatively easy to borrow the money to carry such enterprises through and to meet the initial interest charges. But a debt is created which will remain for years to come. When the present buoyancy subsides, when money is less easy to obtain, when depression and some degree of unemployment replaces present favorable conditions in business, will the load be too heavy to carry?

It will be unless care is exercised by all civic and municipal authorities in seeing that the safety line in expansion is not passed, and that expenditures now made are for permanent constructive work which will be revenue producing in the years to come. Extravagance in ideas is no more justified in times of prosperity than they are at other times. It is in those "other times" that the bills really have to be paid.

Developmental works are necessary and are justified in times of prosperity, when they would be suicidal, in fact quite impossible, in times of depression. When depression prevails it is frequently impossible to provide for even imperative and wholly justifiable expenditures. These must be provided when times are prosperous. It then becomes an equally imperative duty to provide them.

But non-essentials, no matter how desirable they may be in other respects, should be carefully considered less citizens, the taxpayers, are unthinkingly swept into the authorization of expenditures which later on they may have cause to bitterly regret.

Such words of warning are unnecessary in times of depression; it is now, when prosperity is with us, that warnings are necessary and should be heeded.

## Simple Precautions Against FLU

### Sore Throat —

### — The Danger Signal

Health Authorities Point Out The Necessity Of Treating The Simple Cold At Its Beginning

Nearly every case of "Flu" starts with a simple cold. At first the throat is sore—often just a little hoarse—soon the infection goes lower—then the chest is affected. A safe plan is to gargle the throat three times daily with "Nerviline"—this will keep the throat free from germs. If there is any sign of tightness in the chest, rub on Nerviline—every drop will penetrate deeply—congestion will be relieved—the cold will break up quickly. Many a dangerous case of "Flu" can be avoided by this simple home treatment.

Of course it is always wise to take some relaxing medicine, and for this purpose immediate results will be secured from Dr. Hamilton's Pills—they purge the system of impurities and carry off a lot of disease—breeding wastes.

This combination treatment of Nerviline and Dr. Hamilton's Pills is very effective for Grippe, Influenza, Bad Colds, etc., and can be relied upon to give very satisfactory results.

## The Newest Invention

### Wrist Watch When Worn Three Hours Winds Itself

A self-winding watch has been invented by a Lancashire artisan. Finding that seventy-five per cent. of watch troubles were caused by dirt or moisture entering through the aperture of the winder, he set out to make a watch which would be completely enclosed. In two and a half years, working in his spare time, he succeeded. The new wrist watch winds itself. To keep it going all the owner has to do is to wear it for three hours a day. It can not be overwound.

As a vermifuge an effective preparation is Mother Graves' Worm Exterminator, and it can be given to the most delicate child without fear of injury to the constitution.

### Record Beet Acreage Predicted

All records for beet acreage in southern Alberta threaten to go by the boards in 1929. Pre-sign-up indications are that there will be over 10,000 acres of land planted to this crop if the spring outlook is at all satisfactory.

## A SPRING TONIC

### AN AID TO HEALTH

You Can Lay the Foundation Of Good Health Now By Building Up Your Blood and Strengthening Your Nerves Through the Use Of Dr. Williams' Pink Pills.

The good old fashion of taking a tonic in the Springtime, like most of the customs of our grandparents, is based upon sound common sense and good medical practice. Winter is always a trying time for those who are not in rugged health. Many men, women and children go through the winter on reserve strength they have stored up during the sunny summer months, and grow increasingly pale and languid as the spring days approach. A tonic for the blood and nerves at this time will do much for such people, by putting color in the cheeks and banishing that tired feeling that worries thousands of people at this season of the year.

It is impossible to be energetic if your blood is thin and weak, or if your nerves are frayed or shattered. You cannot compete with others if you do not get refreshing sleep at night, or if your appetite is poor or you are losing weight. You need a tonic at this time to add to your efficiency now, as well as to save you from suffering later on. And in all the realm of medicine, there is no safer or better tonic than Dr. Williams' Pink Pills. These pills tone and enrich the blood which circulates through every portion of the body, strengthening jaded nerves and run-down organs, and bringing a feeling of new strength and energy to weak, easily tired, despondent men, women and children.

Mrs. L. Hupman, Summerville Centre, N.S., writes:—"Dr. Williams' Pink Pills have been of the greatest benefit to me. A few years ago I was in a badly run down condition. I became so weak and nervous that I could scarcely go about, and doing my housework left me completely used up. Everything seemed to worry me, and I was in a very discouraged condition, when I began taking Dr. Williams' Pink Pills. I soon found the pills helping me, and continuing their use I fully regained my health. Since then I always take a few boxes in the Spring to build me up for the hot weather, and always I find the best results. I therefore cheerfully recommend these pills as the best of health builders.

You can get these pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A new German cruiser to be constructed at Kiel, is to be electrically welded, no rivets being used in any part of the ship.

No one need endure the agony of corns with Holloway's Corn Remover at hand to remove them.

"I wonder why they say 'Amen' and not 'Awomen' Bobby."

"Because they sing hymns and not hers, stupid."

Miller's Worm Powders destroy worms without any inconvenience to the child, and so effectively that they pass from the body unperceived. They thoroughly cleanse the stomach and bowels and leave them in a condition not favorable to worms, and there will be no revival of the pests.

Gillett: "Did you ever kiss a girl when she wasn't looking?"

Terry: "Not when she wasn't good-looking."

Use Minard's Liniment for the Flu.

### CHAPTER XVII.—Continued

Connie made no attempt to check her cayuse's onward flight. She was in no mood to listen to the kudos of the admiring crowd; she wanted only to get away from the scene as quickly as possible. The movement toward the centre gave her the opportunity she desired, and she urged the weary cayuse through an opening on her left. Many hands were reached up to congratulate her, but she pushed her way through to the trail.

At the sound of hoof-beats behind her she turned to see Lafonte urging his tired mount toward the Pemberton trail and looking back apprehensively over his shoulder.

Several men were running after him, shaking their fists and uttering loud imprecations. A man leaped from behind a jack-pine to land in the path of the half-breed, lunged for the reins, missed, then caught the stirrup. Lafonte struck the man a blow with his heavy whip that loosened his hold and felled him to the ground.

Connie saw Gillis break from the crowd, jump to the saddle of a cayuse and start after the fleeing man just as the latter disappeared in the woods. Gillis waved his hand to her and vanished in pursuit. She urged Pegasus to the shelter of the timber as she saw her father and Donald running toward her.

The strenuous race and the spectacular fall had left both horse and rider in a badly shaken condition. Connie's body was bruised and sore, and her head ached horribly. The cayuse's strained muscles were stiffening, he was limping badly, and his head drooped wearily as he dragged his tired limbs up the steep trail.

WHEN a cold or exposure brings aches and pains that penetrate to your very bones, there is always quick relief in Aspirin. It will make short work of that headache or any little pain. Just as effective in the more serious suffering from neuralgia, neuritis, rheumatism or lumbago. No ache or pain is ever too deep-seated for Aspirin tablets to relieve, and they don't affect the heart. All druggists, with proven directions for various uses which many people have found invaluable in the relief of pains and aches of many kinds.

Aspirin is a Trademark Registered in Canada

W. N. U. 1781

At the barn door Connie dismounted stiffly, removed the horse's bridle, then threw her arms passionately around his neck and stroked his symmetrical head with soft caresses. "I'm so sorry, Peggy darling," she said in a choking voice.

The horse nipped her shoulder in a weak attempt at playfulness, as if to signify that he quite understood.

Connie's eyes brightened at a sudden thought. "Peggy, dear," she whispered softly as she nestled her cheek against his soft mane "do you know that I can have some nice clothes now? Lots and lots of nice things. I am going to buy you a blanket—a nice thick one for winter—and some ribbons for your mane. And you, Peggy—with a flood of tenderness in her voice—"you won all this for me."

She was crooning sweet nothings in his ear that only Pegasus could understand when her father appeared, breathless from running, his face grey and anxious.

"Are you all right, Constance darling?"

Connie stepped forward. She was pale and weak, but her colourless lips tried to form a smile. "Yes, Daddy dear—I'm—all—ri—" Her voice trailed to a whisper and the blue eyes closed as darkness fell upon her like a cloud. Swaying uncertainly for an instant, she fell like a broken flower into her father's outstretched arms. For the first time in her life Connie had fainted. She lay like a child in his trembling arms, her upturned face wearing the pallor of death.

With a prayer on his lips and an agony of fear in his heart, her father carried her to the cabin and tenderly stretched the bruised little body on the coarse blankets of her bunk.

### CHAPTER XVIII.

At the race-course the crowd eddied excitedly about the judges' stand, or stood in groups talking of the wonderful performance of the spotted cayuse that had made the erstwhile champion appear a mere tyro.

Gillis came riding slowly from the woods and was hailed by questioning shouts from a score of throats.

"Did you get him?"

A bloody handkerchief was wrapped around the big man's head, and a livid welt showed on his forehead. He smiled grimly as he dismounted, "I got the d—d skunk," he answered savagely.

He turned to a group of Indians. "You fellers'd better look out for him when you go along; his eyesight's kinda bad."

Donald came to the front of the judges' stand and held up his hand for silence. Gradually the hum of voices died away and the crowd turned to face him.

"As you know we are to take up a collection to add to the Company's purse. The gentleman below," pointing down at Andy, "will hold the hat. We have witnessed an exhibition of matchless skill and pluck. Give us you feel."

The crowd cheered lustily. Then, jostling each other good-naturedly like a lot of schoolboys, they formed in a long queue.

Andy started the contribution by giving his whole roll of bills. Money showered upon him until he was forced to call for another hat.

"Fightin'" Jack came to Donald in great perturbation. "Say! Our gang's all stony broke. Can we sign a due-bill?"

Donald called the time-keeper.

"Make her out for twenty bucks for each of us," said "Fightin'" Jack.

Andy's spirits soared as the pile rose higher.

"God bless 'er little 'eart," he murmured, "she can 'ave an 'ole ship-load of them blinkin' camisole things."

An hour later, as Donald climbed the hill to deliver the prize, he met Doctor Paul.

"How is she, Doctor?"

"She's had a nasty shaking up, but there are no bones broken. She will have to remain in bed for a week or so."

Wainwright saw Donald coming and stepped outside the door to meet him. "She's sleeping," he said in a low tone. He looked questioningly at Donald as the latter passed him the package of money.

"The prize money," Donald explained.

Wainwright peeped at the contents and his face lit up with pleased as-

## NICE WORDS WON'T DYE a dress or coat...

Neither pretty pictures nor colorful adjectives will dye a dress or coat. It takes real dyes to do the work; dyes made from true anilines.

Next time you have dyeing to do, try Diamond Dyes. See how easy it is to use them. Then compare the results. Your dealer will refund your money if you don't agree they are better dyes.

You get none of that re-dyed look from Diamond Dyes; no streaking or spotting. Just fresh, crisp, bright new color. And watch the way they keep their brilliance through wear and washing. They are better dyes because they contain plenty of real anilines—from three to five times more than other dyes. But you pay no more for them than for ordinary dyes.

The white package of Diamond Dyes is the original "all-purpose" dye for any and every kind of material. It will dye or tint silk, wool, cotton, linen, rayon or any mixture of materials. The blue package is a special dye, for silk or wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. Remember this when you buy. The blue package dyes silk or wool only. The white package will dye every kind of goods, including silk and wool. Your dealer has both packages.

## KEEP YOUR BABY HAPPY AND WELL

Every mother wishes her child or children to be well and happy; to be bright-eyed, rosy-cheeked boys and girls. No mother, though, can expect her children to escape all the ills of babyhood and childhood, but she can do much to help them fight the battle for health.

All prudent mothers constantly keep at hand the means of aiding their little ones when sickness comes suddenly—as it generally does in the case of children. In every home where there are infants and young children Baby's Own Tablets should be found. Read what Mrs. Mary Hill, Centre Dummer, Ont., says concerning these Tablets:—"I am the mother of six children and would not be without Baby's Own Tablets. They are a wonderful medicine for little ones."

Baby's Own Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach and thus break up colds and simple fever, banish constipation and indigestion and allay the irritation accompanying the cutting of teeth. They are absolutely safe and are pleasant to take. The Tablets are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

You can tell a civilized country. It's one where people kill the birds and then spend millions to fight insects.

An Oil Without Alcohol.—Some oils and many medicines have alcohol as a prominent ingredient. A judicious mingling of six essential oils compose Dr. Thomas' Electric Oil, and there is no alcohol in it, so that its effects are lasting.

Magistrate: Are you sure you understand the nature of an oath?  
Youth (scared stiff): Sure. Ain't I your caddy down at the links.

Minard's Liniment for Coughs and Colds.

He (earnestly):—"I mean to kiss you, and kiss you, and kiss you."

She—"That would be only three times."

Minard's Liniment prevents Flu.

### Long Air Trip Planned

One of the longest air lines in the world is being contemplated between London and Cape Town. The route, more than 8,000 miles long, will branch off at Cairo, crossing over into India.

-they call him  
"The man you can't rattle"

Many successful business men regularly use Wrigley's. The act of chewing has a soothing effect. The healthful cleansing action of Wrigley's refreshes the mouth—gently stimulates the flow of the natural juices—steadies the nerves—aids digestion.

EDOUARD J. ROULEAU,  
Editor and Publisher

We received a poem written by Carbon girls, who ask that it be published in this newspaper, but owing to the length of same we have declined to run this in our news columns. We do not want to discourage these young poets, but hope that they will keep up the good work and some day one of our own Canadian newspapers or magazines may be clamoring for their poems or poetry.

### BENEFIT TO ALL

The proposition of "Trading at home" has been too often construed for the help of the merchant alone. There is no greater economic fallacy. The merchant may gain the first or primary benefit; the result may show up first in his own cash register; but by no means is the business man the sole heir of local patronage. We are all business people. It is a broad term and includes those who toil or add anything to the total of human welfare.

The merchant, the banker, the housewife, the teacher, the preacher, the lawyer, the doctor, the laborer, the farmer, in short—the "Butcher," the baker, the candlestick maker" are all in the same class when it comes to making this district what it should be. Set any one of these trades or professions going and all the rest are benefited all the way up or down the line. If one prospers, the other he deals with or pays wages to are helped accordingly. It means more savings, more bank deposits and more business.

If life is to survive in its fullness, and richness and culture in the suburban and rural sections, and in the smaller cities and towns of the country, the economic prosperity all would have to move out.

The business of the people of this locality is to do business here, if it can be done with reason and propriety. And we believe it can. Every dollar spent here makes it that much easier for the other fellow to spend his money here, and so on, like any other cumulative dividend.

Investing in your district is like getting compound interest, with the privilege of cashing in on the principal.

### THE EDITOR

The following is taken from a school boy's essay on the Editor and is perhaps more truth than fiction: "I don't know how the papers got into the world, and I don't think God does, for he ain't got nothing to say about these in the Bible. I think the editor is the missing link we read of, and that he stayed in the business until after the flood and came out and wrote the thing up, and has been kept busy ever since. If the editor makes a mistake folks say he ought to be hung; but if the doctor makes a mistake he buries them and people don't say nothing, as they can't read Latin. When the editor makes a mistake there's a big lawsuit and swearing and a big fuss; but if the doctor makes one there is a funeral with flowers and perfect silence. A doctor can use a word a yard long without him or anyone else knowing what it means, but if the editor uses one he has to spell it. If the doctor goes to see another man's wife he charges for the visit, but if the editor goes he gets a charge of buckshot. Any college can make doctors to order, but editors have to be born."

## RUST RESISTING WHEAT SOON TO BE AVAILABLE

Winnipeg.—Efforts of agricultural scientists to develop a rust-resistant wheat, which would save millions of dollars annually, are meeting with success.

At a meeting here of the Associate Committee on Rust Research, organized under the auspices of the Dominion Department of Agriculture and the National Research Council, reports delivered showed that rust-resistant wheats which appear to have good baking and milling qualities have been secured through the efforts of the plant breeders engaged on the problem and now await development.

Paying tribute to the work of Canadian scientists, especially those working on agricultural problems, Dr. J. H. Grisdale, deputy minister of agriculture of the Dominion, said that profound study and unceasing application to the problems had at last produced results which seemed in a fair way to solve the difficulties in the way of combatting the rust menace. This, he added, was obtained through the close co-operation of the plant pathologists and plant breeders.

During the sessions of the committee it was reported by L. H. Newman, Dominion cerealist, that baking tests on some 36 lines of Marquis Cross rust-resistant wheats are under way at Ottawa. Of these several showed real promise and some of them excel in baking qualities.

Members of the committee today witnessed a demonstration of a newly-developed rapid electrometric method for the determination of moisture in wheat. The demonstration was conducted by Professor Burton, of the University of Toronto, and Arnold Pitt, inventor of the instrument. The instrument is not yet fully developed, but gives great promise when complete details of its operation have been worked out.

Tests developed last summer in Manitoba showed that sulphur dusting of grain is effective in controlling rust, but further research work is necessary for the development of a dusting schedule. Small plot, field and greenhouse tests were conducted. Both horse-drawn and motor-driven machines were used.

At the concluding session of the

conference, Dr. Grisdale announced that a conference of plant pathologists conducting research in plant diseases other than rust would be held in Edmonton some time during the autumn.

## More Settlers Going Into Peace River

Figures To Date Show Large Increase Over Last Year

Edmonton.—Nearly 1,000 settlers with a total capital estimated at approximately \$1,150,000, have gone into the Peace River country as new settlers to date this year, according to colonization officers here.

The real rush of settlers commences in April. Last April 1, 200 settlers went in. This April conservative estimates place the figure at 1,500, and the good start already made this month indicates that this estimate is likely to be exceeded.

The settlers are in the majority of cases Canadian and American of excellent type, probably 90 per cent. of them are seeking homesteads, which means that the great bulk of the settlement will be on new land.

Lands beyond railway extensions both north and south of the Peace are favored, the homesteads being about equally divided between Fairview, on the north side of the river, and Hythe, on the Grand Prairie extension south of the river.

## Money For Immigration

Over Million Dollars Spent In British Isles In 1928

Ottawa.—A total sum of \$1,016,202 was expended by the department of immigration in the British Isles in 1928. The sum expended by the same department on the continent of Europe alone last year, was \$75,796,67. The amount expended for obtaining immigrants in the United States was \$392,157. The aggregate amount spent by the immigration department from 1881 to 1928 was \$51,618,024.96.

The information was given in the House of Commons by Hon. Robert Forke, minister of immigration and colonization.

## Questions Gun Boat On Lakes

Ottawa.—Questions regarding the approach to the Canadian shore in one of the great lakes recently of a U.S. gunboat have been placed on the order paper of the House of Commons by Gen. A. E. Ross, Conservative, Kingston. General Ross requests information as to whether there is an agreement between the two countries for the use of gunboats on the great lakes and if Canada has any armed boats thereon.

## Heart Trouble Hands and Feet Numb and Cold

Mrs. Wm. Fowler, Auburn, Ont., writes:—"Several years ago I was troubled with my heart and nerves, so bad, at times, my hands would become numb and cold. I took doctor's medicine, for a while, but it did me little or no good. I happened to see

advertised and started taking them at once, and continued for some time, and since then I have had no return of my trouble."

Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

## Former Doorn Official Arrested

Berlin.—Police admitted that they had arrested Karl Hartung, recently secretary to the former Kaiser's wife, Hermine. The arrest had been kept secret. It was reported Hartung had threatened to make "revelations" about conditions at Doorn Castle in Holland.

The Oil Of Power. — It is not claimed for Dr. Thomas' Electric Oil that it will remedy every ill, but its uses are so various that it may be looked upon as a general pain killer. It has achieved that greatness for itself and its excellence is known to all who have tested its virtues and learned by experience.

## Aviator Performs Dangerous Stunt

Makes First "Outside" Loop Ever Negotiated In Commercial Plane

Minneapolis, Minn.—Charles W. (Speed) Holman, holder of the world's record of 1,433 consecutive loops, claims the distinction of having made the first "outside" loop ever negotiated in a commercial plane.

Holman performed the feat at an altitude of 4,000 feet over World-Chamberlain Field here. He used the same Wright Whirlwind-motored bi-plane with which he won the New York-Seattle air derby two years ago.

The outside loop, regarded by aviators as one of the most dangerous "stunts" in flying, had never been completed before except in strong, especially constructed army planes.

## BABIES GAIN BY THIS SIMPLE METHOD

Doctors say, souring waste in baby's digestive tract is usually back of any failure to gain weight according to schedule. And the best proof, this is true, is the quick way, weak, fretful, puny babies improve when you cleanse their stomach and bowels and put them in order with a few doses of purely-vegetable, pleasant-tasting Fletcher's Castoria. This gentle, harmless preparation is the doctor's first thought to relieve those ills of babies and children, such as colic, gas, constipation, diarrhoea, colds, etc. Just be sure you get genuine Castoria in the bottle that bears the Fletcher's signature.

## New U.S. Ambassador To Great Britain

Appointment Of Former U.S. Vice-President Is Announced

Washington.—Formal announcement of the appointment of former Vice-President Dawes as ambassador to Great Britain has been made at the White House.

The appointment was made after receipt of word from the state department that the British government had advised that the appointment of Gen. Dawes would be entirely acceptable to the King.

## Thinks Pact Necessary

Stamburg, Germany.—Count Von Bernstorff, chairman of the German delegation to the League of Nations disarmament preparatory conference, on the eve of his departure for Geneva, expressed the opinion that the out-law war pact was necessary and should be followed by world disarmament and the adoption of a general pact for settling all disputes by legal means.

## Long Term Leases For Churchill Lots

Will Probably Be For 99 Years Says Hon. D. G. McKenzie

Winnipeg.—Leases of lots in the townsite of Churchill, terminus of the Hudson Bay Railway, will probably be for 99 years, transferable and subject to revision as to rates at the end of five years, and each ten year period thereafter, it was stated by Hon. D. G. McKenzie, minister of mines and natural resources for Manitoba.

It was intimated a few days ago by Premier Bracken, that the government did not intend to sell lots at Churchill. Interest in the settlement of Manitoba's northern seaport continues to increase, Mr. McKenzie said. The government will concentrate its work on the townsites of Cranberry Portage and Sherritt-Gordon, the minister added.

## Will Join Los Angeles To London Flight

Australian Aviatix Plans To Accompany Captain William Lancaster

Redbank, N.J.—Mrs. Keith Miller, Australian aviatix, who flew with Captain William Lancaster from London to Australia, has said she would be second pilot and radio operator on a proposed flight from Los Angeles to New York, London and return.

Captain Lancaster will be pilot on the projected flight and Captain Barry Lyons will be navigator. Mrs. Miller said that she hopes to take off from Los Angeles in June. They plan to reach New York in one hop and fly between the east and west coast on their return without stopping. They will use a tri-motored all-metal closed plane.

## SUNDAY SCHOOL LESSON

APRIL 21

### COMFORT FOR GOD'S PEOPLE

Golden Text: "As one whom his mother comforteth, so will I comfort you."—Isaiah 66.13.

Lesson: Isaiah 40.1-11.

Devotional Reading: Psalm 30.1-5.

### Explanations and Comments

The People Of Judah Have Suffered Their Full Penalty, verses 1, 2.—We pass today in thought from the time when Judah was enjoying great prosperity under good King Hezekiah (our last lesson), to the time when Jerusalem had fallen prey to the Babylonian power and had been laid waste, and the majority of her people carried away into exile in Babylonia.

Comfort ye, comfort ye my people, saith your God. How great was the people's need of comfort is shown in Isaiah 40.27; 49.14. Who the "ye" are problematical: "the prophets, or the prophetically-minded among the people; certainly not the priests." "The prophets may be nameless, but the Deity who speaks through them speaks as already known and acknowledged: 'My people, saith your God.' By these impersonal voices a personal revelation is made."

Speak ye comfortably to Jerusalem. Speak comfort to the heart of Jerusalem, is Dr. McFadyen's translation. The prophets were to put hope into the heart of the exiles, to strengthen them by an assurance of a speedy return to the home land. Jerusalem (then in ruins) is "an ideal representation of the people." "The city had suffered in and with her exiled people, and their deliverance was hers."—G. W. Wade. Tell her that her warfare is accomplished (her time of service, her exile, is over); that her iniquity, her guilt, is pardoned; that she has received double penalty (ample punishment) for her sins.

The prophet's charge is laid upon all who would speak of Christ to men. Speak to the heart, not only to the head or the conscience, God be-seeches in the person of his ambassadors. The substance of the message may well find its way to the heart; for it is the assurance that the long, hard service of the term of exile is past, that the sin which brought it about is forgiven, and, more wonderful and gracious still, that God's mercy reckons that the ills which follow our faithlessness have more than expiated it."—Alexander MacLaren.

Asthma Cannot Last when the greatest of all asthma specifics is used. Dr. J. D. Kellogg's Asthma Remedy assuredly deserves this exalted title. It has to its credit thousands of cases which other preparations had failed to benefit. It brings help to even the most severe cases and brings the patient to a condition of blessed relief. Surely suffering from asthma is needless when a remedy like this is so easily secured.

## NEW RECORD IS SET IN C. N. R. REPORT FOR 1928

Ottawa.—The railway operating revenue of the Canadian National for the year 1928 reached the record figure of \$276,631,921. After payment of operating expenses, amounting to \$218,248,343, taxes amounting to approximately five million dollars and other charges, the total operating income was \$53,213,729 compared with \$40,789,724 in 1927.

The report of Sir Henry Thornton, chairman and president, covering the operations of the system in 1928, was tabled in the House of Commons by Hon. Charles A. Dunning, minister of railways and canals. It tells of the progress made by the publicly owned system in its various departments.

The ratio of operating expenses to gross earnings in 1928 was 78.89 per cent. as against 81.75 per cent. in the previous year.

The gross earnings exceeded those of 1927 by \$27,915,546, (11.2 per cent.) Freight traffic produced \$209,429,962; passenger traffic, \$34,187,023; express, \$13,307,373; mails \$3,099,212, while miscellaneous operations produced \$16,598,348. Passenger revenue increased 1.7 per cent. over the figure for 1927. Gross express revenues were increased by \$695,947 (5 per cent.)

The total Dominion grain crop harvested in 1928 was approximately 1,200,000,000 bushels. The report estimates an increase of nearly 10 per cent. over the figure for 1927. For the calendar year grain deliveries on the western region of the C.N.R. were nearly 37 per cent. over the former record made in 1923.

### Income Tax Collections

Ottawa.—There was an increase of \$2,851,250 to the total income taxes collected in the year ending March 31 last, as compared with the year before, it was announced by Hon. W. D. Euler, minister of national revenue, in a statement issued. The total for the past year was \$59,422,297.

## Cutting Corns With Razor Leads To Lock-Jaw

Don't cut corns with an old razor blade. Infection, followed often by death may result from paring corns with an infected razor. Quick, safe relief comes from using PUTNAM'S CORN EXTRACTOR. If afflicted with corns, callouses or sore foot-lumps, use "PUTNAM'S"—it's reliable, and sure to shrivel up the corns so they drop right off. No pain, no soreness, but quick relief from sore corns comes to all who use PUTNAM'S PAINLESS CORN EXTRACTOR. 25c. at all dealers.

The horns of the taxis in Italy are pitched in different keys, and when a block occurs on a street, the protest is melodious and never harsh.

THE GARAGE, CARBON****SPRING FEVER**There really "ain't" no such animal.  
But since the elements revolt at a  
placid change of weather conditions,  
mother nature might well and as eas-  
ily make the old human being re-  
spond also. April showers are no  
more than the breaking up of the  
winter and an adjustment of the cli-  
matic condition from a colder to a  
warmer atmosphere. There is bound  
to be some sort of atmospheric ruc-  
tion. It may be storms, it may be  
cyclones and twisters, or it may be  
just what struck the province of On-  
tario the other day, laying waste in  
many places. This is natural.The adjustment of the anatomy is  
hardly so turbulent, but it is equally  
affected. The blood, a bit thicker inwinter, does not thin down in a day.  
It must be a trifle thinner in summer.  
This is a slow process. When the  
first hot days come the physical con-  
dition is not ready for the change.  
The slowness and the thick blood  
are not in accord. Thus the sluggish-  
ness, thus the spring fever. The  
warmer it continues to become, the  
thinner the blood becomes, until a  
complete normal and satisfactory ad-  
justment is made. That's the natural  
explanation of spring fever. Sluggish-  
ness and laliness are not of the  
same family. The mean entirely two  
different things. Spring fever is a  
natural phenomenon with many and  
not a mere myth.—Ex.**GOVERNMENT TELEPHONE
